Visvesvaraya Technological University

VTU is one of the largest Technological Universities in India with 20 years of Tradition of excellence in Engineering & Technical Education, Research and Innovations. It came into existence in the year 1998 to cater the needs of Indian industries for trained technical manpower with practical experience and sound theoretical knowledge.

University has very successfully achieved the tremendous task of bringing various colleges affiliated earlier to different Universities, with different syllabi, different procedures and different traditions under one umbrella.

The university having 219 affiliated colleges, 1 constituent college and 17 Autonomous colleges with undergraduate courses in 35 disciplines, PG program in 94 disciplines and Ph.D & M.sc(Engg.) with research programs in 592 departments, over 4 lakhs Engineering Students study in the various institutes affiliated to the University. The University has 13 Quality Improvement Programme (QIP) centers in various affiliated colleges and 16 extension centers for offering PG programs.

Equipped with the extremely rich resources of an outstanding student body and faculty strong partnerships with business, industry, and government and support from alumni and friends, VTU is designing a future of global preeminence, leadership, and service. The University is making steady progress in developing and providing best technical environment for education and will continue to serve the nation in coming years. Free and Open Source Software (FOSS) activities are conducted by VTU FOSS Group through FOSS Advisory Body.

IIT Bombay - Spoken Tutorial

Established in 1958, the second of its kind, IIT Bombay was the first to be set up with foreign assistance. The funds from UNESCO came as Roubles from the then Soviet Union. In 1961 Parliament decreed the IITs as 'Institutes of National Importance'. Since then, IITB has grown from strength to strength to emerge as one of the top technical universities in the world.

The institute is recognised worldwide as a leader in the field of engineering education and research. IIT Bombay also builds links with peer universities and institutes, both at the national and the international levels, to enhance research and enrich its educational programmes. Spoken Tutorial is a multi-award winning educational content portal. Here one can learn various Free and Open Source Software all by oneself. Self-paced, multi-lingual courses ensure that anybody with a computer and a desire for learning, can learn from any place, at any time and in a language of their choice.

Courses are simple and easy to follow even for a beginner but they also meet the growing needs of the learner. Engaging digital content ensures that learning happens at all levels - Basic, Intermediate and Advanced. Content in IITB-ST mandates side-by-side practice thereby ensuring that learners are actively learning. Many of the software taught, are used in various disciplines of Engineering

SciLab is a cross-platform, free and open source numerical computational package and easy-to-use, interpreted, high level, matrix based programming language with a versatile inbuilt mathematical library.
